# Genesis R&D<sup>®</sup> Food Version 11.4 Overview Webinar

## **Presented by ESHA Research**

Wednesday, September 6, 2017 11:00 AM PDT | 1:00 PM CDT | 2:00 PM EDT

## About ESHA Research

ESHA Research was established in 1981 with the goal of providing a comprehensive nutrition database with few missing values.

**Our Solutions Include** 

- Food Formulation & Labeling Software
- Restaurant Menu Analysis & Labeling Software
- Supplement Formulation & Labeling Software
- Nutrition & Diet Analysis Software
- Consulting Services

## **Genesis R&D** Food Analysis & Labeling Software

- Released in 1991
- Pre & Post 2016 Label formats
- Product Development
- Menu Analysis
- Nutrient Analysis
- Nutrient Search
- Reporting Features
- Audit Trails

- US, Canada, Mexico, & EU Label Formats
- Labeling & Compliance
  - Allergen Statements
  - Ingredient Statements
  - Nutrient Content Claims

## **Upcoming Webinars**

**3** Ways to Share Genesis R&D Data Internally & Externally | September 19, 2017 ESHA Workflow tools enable you to share your data with clients, consumers, and 3rd party ERP systems without ever having to re-enter information. During this 30minute webinar, we will cover the various options for importing and exporting your ingredients, recipes, reports, and labels, as well as the benefits of each option.

# Today's Agenda

During this 45 minute webinar we will cover:

- Attachments
- Enhanced Label Options
  - Shortened Labels
  - Options for Small Packages
  - Rounding Rules Option
- Nutrient Content Claims
- Online Help
- DataLink & TraceGains
- Q&A

## Attachments

- What: Ability to attach documents
- Why: You requested it!
- Where: Ingredients, Recipes, Adv. Labels, Food Menu
- **How**: Drag and drop or upload from your computer

## Shortened Label

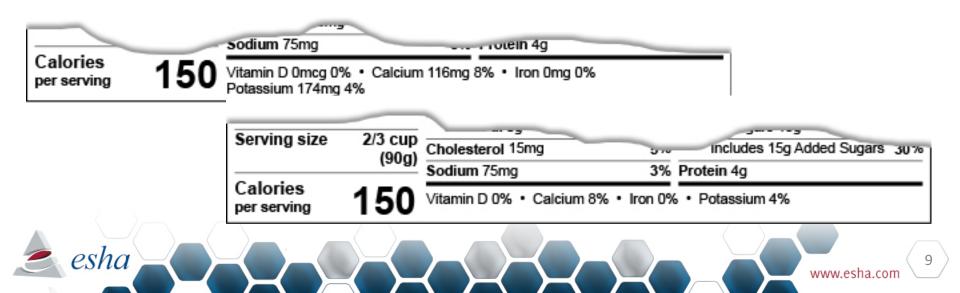

- What: Adjust location of insignificant nutrients Why: Part of the CFR
- Where: Edit Label / Format & Nutrient Options
- **How**: Show insignificant footnote, then decide which nutrients to include

| Vitamin D 0mcg  | 0% |  |
|---|----|--|
| Calcium 55mg  | 4% |  |
| Iron 1mg  | 6% |  |
| Potassium 187mg   | 4% |  |
| Not a significant source of trans fat,<br>cholesterol and total sugars. |    |  |

# **Small Package Options**

What: Remove quantitative data & hide % DV footnote in tabular or linear label
Why: User requests, supported by FDA
Where: Edit Label / Format Options

How: Can be used to save space on small packages

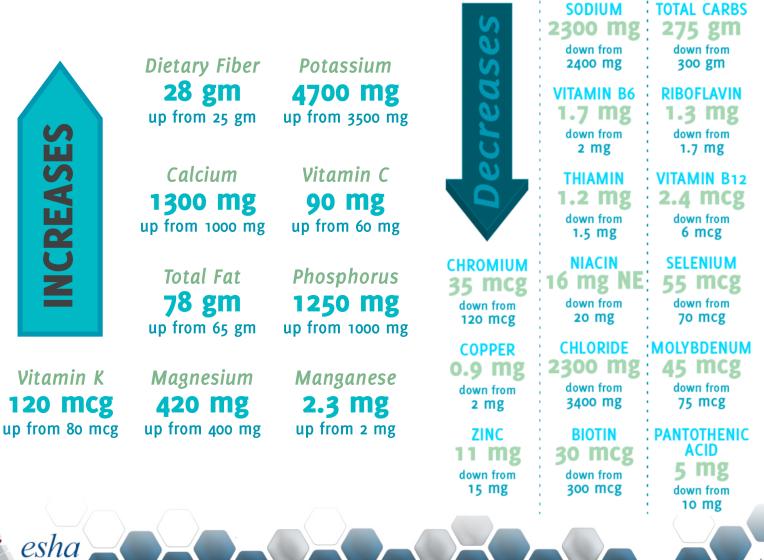

## **Rounding Rules Draft Guidance**

What: Apply FDA Draft Guidance Rounding Rules
Why: User requests, supported by FDA
Where: Edit Label/Format Options
How: Click "Use FDA Guidance for nutrient rounding"

| Nutrient               | Unit of Measure         | RDI for Adults and<br>Children ≥ 4 years | Recommended<br>increment |
|------------------------|-------------------------|--|--------------------------|
| Vitamin A              | Micrograms RAE<br>(mcg) | 900                                      | Nearest 10 mcg           |
| Vitamin C              | Milligrams (mg)         | 90                                       | Nearest mg               |
| Calcium                | Milligrams (mg)         | 1,300                                    | Nearest 10 mg            |
| Iron                   | Milligrams (mg)         | 18                                       | Nearest .1 mg            |
| Vitamin D              | Micrograms (mcg)        | 20                                       | Nearest .1 mcg           |
| Vitamin E              | Milligrams (mg)         | 15                                       | Nearest .1 mg            |
| Vitamin K              | Micrograms (mcg)        | 120                                      | Nearest mcg              |
| Thiamin                | Milligrams (mg)         | 1.2                                      | Nearest .1 mg            |
| Riboflavin             | Milligrams (mg)         | 1.3                                      | Nearest .1 mg            |
| Niacin                 | Milligrams NE (mg)      | 16                                       | Nearest .1 mg            |
| Vitamin B <sub>6</sub> | Milligrams (mg)         | 1.7                                      | Nearest .1 mg            |

## **Changes in Daily Values**

www.esha.com

11

# Nutrient Content Claims (NCC)

What: NCC based on 2016 label DVs
Why: Changes in daily values
Where: Recipe toolbar
How: Label type (edit label) will drive claims

# Example: 8 mg Vitamin C 1990 - 60 mg 13% good source 2016 - 90 mg 8% ----

## **DataLink Integration**

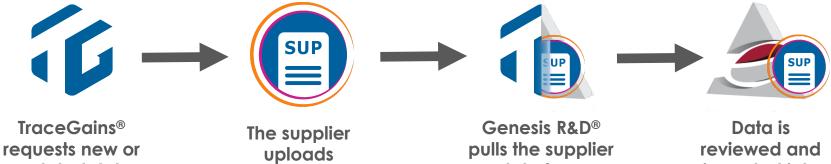

What: DataLink is an add-on integration module that connects TraceGains items to items in Genesis R&D

Why: Streamline supplier ingredient updates, eliminate redundancy and data entry

Where: Database menu in Genesis R&D. (If the icon is grayed out, your license does not include this program.) How: Review all TraceGains ingredients and link items to

items in the Genesis R&D database OR create new.
